APPOINTMENTS &
WALK-IN
SERVICES

ACCREDITED
LABORATORY
SERVICES

WATSON CLINIC maintains one of the most highly advanced and expertly staffed CAP accredited medical laboratories in the area, offering a number of services from routine blood draws to specimen collection. Laboratory services include chemistry, hematology, histology, microbiology and serology.

Most lab tests are performed in-house, which elevates and expedites the quality of your care. If you are registered on Watson Clinic's patient portal called MyChart, many routine results may be available for you to review. Other results will be reviewed by your provider and you may be contacted by mail, phone, or the results will be discussed at your next scheduled appointment.

Watson Clinic offers laboratory drawing stations at several of our convenient locations including the Main, Bartow, Highlands, South, Plant City and the Cancer & Research Center.

APPOINTMENTS CAN BE SCHEDULED AT THE MAIN, SOUTH, HIGHLANDS, BARTOW AND PLANT CITY LOCATIONS, WHICH ALLOW YOU TO BE SEEN IN AN EXPEDITED MANNER.

Walk-ins without an appointment are seen at each location in the order they arrive and may experience wait times. Please note that laboratory waiting rooms are busiest in the mornings. If you are not having a test that requires fasting, you may wish to consider arriving later in the day. Laboratory hours vary according to location. (Please see locations and hours on back side.)
